Expanded City Limits Embrace About 300 New Acres

Superintendent of Public Works in Cameron W. D. Bigbee estimates that the new city limits drawn off at Council meeting Monday night will embrace in the neighborhood of 300 additional acres of land.

Bigbee was authorized by the council to make necessary survey and field notes describing the new city limits and report to the next meeting of the council.

The four way stop at the corner of the First National Bank was okayed when discussion was brought up to replace the signs with a stop light. The councilmen voting to retain the four way stop until further experience showed whether or not they would be successful at that corner to avoid serious mishaps which were imminent when the fast traffic on the through street was considered a hazard.

A request by Ed Longhofer, manager of Woodson Lumber Co. for the city to enter into agreements with the company which would, facilitate the erection of houses, curbing and guttering in a section to be known as the Woodson addition at the corner of 21st street and Woodson. The plot embraces thirty-six lots or ten acres of land. The company agreed to do their own curbing and guttering. Other stipulations in the discussion among members of the council and as a result the whole matter was referred to the water, for study and a later report.

Right-of-way for water drainage across the Dwight Price property which is needed to drain property in hte Burns addition was set out for condemnation proceedings. Other property owners in this area which have granted necessary right-of-way are Lester Williams, William R. Rogers and Mrs. Gladys Clark.

At an earlier meeting of the council a motion by Councilman Schiller was acted on favorably in commending Councilman Grady Stidham for his operation of the street department in 1955 effecting large savings to the city. There were no specifications set out in the motion but it was agreed that from mental calculations the capable councilman had saved the

city approximately six thousand dollars.

On motion, it was voted to require all departments of the city to paint City of Cameron and a serial number on all rolling stock belonging to the city.

The meeting was held on Monday night in deference to the Chamber of Commerce Annual banquet held Tuesday night.

Alcoa Is To Centex Economy As Alcoa Wrap Is To Food

Cameron is now home for 151 employees of Aluminum Company of America and Industrial Generating Company at the Rockdale Works and is one of 55 different towns and communities where these 1,552 persons make their homes.

A survey this week showed Cameron has gained 19 employees during the last 14 months. Percentage wise Cameron claims 9.7 per cent of all employees at Alcoa's Rockdale Works. It is second among hometowns listed by employees.

The average Alcoa family is growing just as the number of employees at the Rockdale Works is growing. In September, 1954, the average Alcoa family was composed of 3.35 people. That same average family now in-

Eighteen of the 55 towns where Alcoas and IGC employees live are listed by more than 10 such residents and account for over 92 per cent of all employees.

Rockdale leads with 605 employees; Cameron is second with 151; and Thorndale is close third with 150. Taylor is fourth with 114 employees and Lexington is fifth with 84.

Listing Caldwell as home are 54 Alcoa and IGC employees, Milano 48, Giddings 36, Hearne 30, Gause 27, Thrall 27, Tanglewood 22, Calvert 18, Buckholts 18, Dime Box 17, Lincoln 15, Granger 12, and Somerville 11.

Ten employees drive to and from Austin each work day. Elgin accounts for 9, Keedbetter 8, Smithville 7, Rosebud 6, and Chriesman 6.

Represented with less than five Alcoa and IGC residents are Ben Arnold, Bremond, Brenham, Burlington, Burton, Carmine, Coupland, Davilla, Deanville, Franklin, Georgetown, Hallettsville, Hutto, Kosse, LaGrange, Leander, Liberty Hill, McDade, Manor, Maysfield, Minerva, Normangee, Otto, Paige, Regan, Rogers, Rosanky, Shiner, Snook, Temple, and Weimer.

Chambers of Commerce Change Officers On High Note Tuesday

Many people from Central Texas joined with the Cameron Chamber of Commerce Tuesday night in celebrating the old year under President Bill Burns and in welcoming the new year under President Drayton McLane.

A highlight of the Tuesday night affair was the awarding of the McCullin Civic Award to Lester Williams, president of the First National Bank for his outstanding civic endeavor in 1955. Jimmy Asher, in presenting the award which has graced his home for a year pointed to the 16 years of Boy Scout work of Williams and his membership in the First

Methodist Church along with his contributions through the Rotary Club, K of P Lodge and the Chamber. Asher pointed out that through Williams' efforts Cameron got the first industry in 50 years. His work on housing developments and on good roads committee. All these fine pieces of outstanding work therefore entitled him to become the OUTSTANDING CITIZEN of 1955.

Drayton McLane, in accepting the gavel for 1956 said "Since we make Cameron home we should work together to make it a better place in which to live by supporting its churches, schools and Civic enterprises. We should strive to make Cameron a better business community. Should endeavor to bring in new businesses, industries so as to create new jobs. The Chamber will give all possible support to farming, stock raising and other established businesses of our community. The Chamber likes constructive criticism. We ask you to write letters giving opinions and suggestions. We will welcome members and non-members to meet with the board of Directors to give advice See Chamber, back page

\$3100 Cameron Red Cross Goal To Be Sought In Three Day Drive

The Red Cross Fund Campaign in Cameron, will get underway Monday, March 25, and will be completed by noon Wednesday, March 28, according to plans made by the campaign workers last Tuesday. Cameron's portion of the \$9,275.00 County goal, will be \$3,100.00. This goal, adopted by the Milam Chapter board of directors, provides for a complete Red Cross program for the year 1956-57.

The men's division of the campaign organization met for break-

fast at the Ben Milam school. Albert Collins was appointed chairman of the special gifts committee, and will be assisted by Louis McKee, Dana Kestenbaum, Jimmie Wiggs, Ben Magness, E. A. Perrin, Henry Seibman, John Solomon and Charles Burke. They will have the responsibility of contacting large businesses and special individuals. Solicitations for special gifts will begin immediately, and it is hoped will be completed not later than Monday, March 25, when the general campaign begins.

"Red Blooded Cameronites To Visit Bloodmobile Today

The Red Cross Bloodmobile will be in Cameron Thursday, March 29, from 12:00 noon to 6:00 p.m. at the Masonic Building, 118 N. Houston Street, according to an announcement by Richard W. Moseley, County Blood Chairman.

U of T Engineers From Cameron Area Make High Grades

The University of Texas College of Engineering scholastic honor roll for the 1955-56 Session's first semester includes: William Roland Newton of Cameron with both full and great honors (expressed in the Latin as Cum Laude Amplia Et Magna).

Lionel Daniel Provazek of Cameron received the great honors (Magna Cum Laude).

Harold Conoley of Thorndale took the Ampla Cum Laude honors as did Carroll William Boecker of Buckholts.

Milam Livestock Clinic And Field Day Today Near Alcoa

All interested livestock producers are invited to the Milam County Livestock Clinic and Field Day scheduled for the afternoon of Thursday, March 22, at the Dr. John J. Parmelee stock pens, 1 mile southeast of the Alcoa Plant and on the Pleasant Hill Community road, according to word from the Rockdale FFA Chapter and the local Chamber of Commerce, co-sponsors of the event.

Dr. Foy E. Lowe, representing the O. M. Franklin Serum Company, will demonstrate proper use of vaccines, medicinals, instruments and supplies for livestock. Special attention will be given to

Moseley, County Blood Chairman. The quota for this visit will be a minimum of 70 pints of blood.

Milam County residents are now using more blood than is being contributed, which makes it imperative that the quota be reached. Rev. John Solomon, recruitment chairman stated that it is the determination of his committee that the goal of 70 pints be exceeded in order that sufficient blood may continue to be available to our citizens. He pointed out that on the last several visits of the bloodmobile the quota for Cameron had not been reached.

Appeals Court Upholds Graham In Coffield Case

The judgement of O. D. Graham was upheld by the Third Court of Civil Appeals in the case tried without jury in his court in 1955 wherein Dewitt Langford and wife sought to win an eight million dollar judgement against W. L. Pickeys and H. H. Coffield of Rockdale. The judgement upheld by the higher court was that the plaintiff take nothing by their suit.

The Court of Civil Appeals, in affirming the judgement of the trial court, quoted with approval the findings, of the lower court as follows: "There is no testimony that defendants failed, refused, or neglected to account fully to Langford for all money and property of his coming into their hands. (See "appeal", back page)

TO THE VOTERS OF THE CITY OF CAMERON:

I am announcing for Alderman, Place 2, hoping that with your co-operation and aid I can give you a reasonable and practical service.

It is my belief you want a general reworking of your streets and a drainage system that will not overflow your property every time a hard rain falls.

If elected I will work hard to please you. I assure you I shall appreciate any favorable consideration you give me.

A. N. Green

making it necessary for other communities and chapters to help provide the requirements of our people. All service clubs, churches, schools and business houses are being asked to cooperate to "give a pint of blood to save a life."

Citizens are reminded that by participating in the Red Cross Blood Program anyone who is a resident of Milam County is eligible to receive any quantity of blood needed at anytime free of charge, except for a small hospital charge for administration. This has saved thousands of dollars for Milam county citizens during the past few years, as well as, assured blood to those needing it when they needed it. Give a pint of blood to save a life, remembering the life you save may be your own.

Members of the committee directing the campaign are: Richard Moseley, general chairman; Rev. John Solomon, recruitment chairman; Mrs. F. E. Jackson, chairman of blood center service personnel.

Dr. Clifford Swift, chairman medical division; and, Calvin Markham, chairman of the property committee. Approximately twenty three volunteer workers will assist in the operation during the day.

Warehousing For Surplus Foods Gets County O.K.

Milam Commissioners took a step forward in negotiations toward obtaining surplus commodities in the county at their regular monthly meeting Thursday March 15 when Judge Charlie Smith was empowered to execute a lease contract with the Santa Fe railroad for warehousing facilities.

A called meeting in the near future between the county and incorporated cities in the county will further iron out the details of distribution of the surplus commodities, Judge Smith said.

Advertising for bids on one and half and two ton trucks with a three yard capacity, hydraulically controlled was ordered by the court.

Sharp Athletic Banquet Held

The annual athletic banquet, sponsored by the Sharp PTA, was held at the school Friday at 7:30 p.m.

This banquet honored members of the school's athletic teams. Marvin Slovaek served as master of ceremonies. Short informal talks were made by senior guests. Entertainment was provided by Velma Crow and Bob Garner.

Supt. George M. Lamb made a few closing remarks and the guests adjourned to the gymnasium for dancing.

Telephoning Game Warden Pays "Telephoning" Fish Costs \$222

One man was fined \$100 and costs for a total of \$117.50 in Justice of the Peace B. G. Rice's court Monday March 12 and two others implicated with him were assessed fines of \$35 and costs for a total of \$52.50 for the illegal practice of "Telephoning Fish" in the Little River.

Jack L. Deason was the heaviest fined because upon his plea of guilty he "took the blame" of borrowing the electrical equipment. The other men apprehended along with the "Electrical fisherman" were Herbert H. Tyler and Charles R. Smith.

The Milam County Sportsmen's Club offers a reward of \$50 for information leading to the apprehension and conviction of people guilty of violating the Game laws.

The person who first saw the men employing the "electrical charge" method of catching fish telephoned the Game Warden at Hearne and he in turn called J. D. Robertson, Game Warden at Bryan who made the arrests and filed the complaint in Cameron.

Bo Peeps

DIXIE WALKER SAYS: The way to build a new courthouse in Milam County without raising taxes is for everybody owning RIVER BOTTOM farm land to render their land at the SAME valuation the SHAFER LAND (Samuel Jones Survey) is rendered. He has been rendering this property at \$15 per acre for at least 15 years and says that HE WILL GO HIGH ER if EVERYBODY ELSE DOES THE SAME. Dixie points out that in his way of figuring the increased income from this equalization alone would PAY FOR THE COURTHOUSE in TEN years. He further believes that another piece of property should be found in Cameron on which to build and leave the old courthouse for housing the many segments of government that needs office space.

HERE IT IS: This is what we have been asking for. Let us know what you think of it. Dixie maintains that this procedure would place the burden on those most able to pay. See Peeps, back page

Red Cross Symbolizes The American Way

By Richard Moseley

Citizens of Cameron are urged to support the American Red Cross Fund Campaign, which will get underway next week to help provide for our own people, as well as those of our nation. There is no other organization that is organized and equipped to render the vast number of services performed by the Red Cross.

During the past year the Red Cross rendered disaster services in forty-four states, where there were three hundred major disasters. Emergency care was provided for 91,000 persons. Long-term aid was provided for 14,400 families.

Services rendered to the armed forces consisted of 119,500 families aided each month by Red Cross Chapters. 106,000 service men were aided each month at military stations and hospitals. \$12,625,400 was provided in financial aid to servicemen and their families. More than 2,000 permanent field staffs were maintained at military installations and hospitals. In addition to these services 45,800 veterans and dependents are served each month by Red Cross chapters. \$768,800.00 in financial aid was provided to them. 176 veterans hospitals were served during the past year.

The Red Cross blood program, during 1954-55 provided 1,918,000 pints of blood for civilian use and 292,000 for military use. This blood was given by an average of 184,125 blood donors each month during the year. There were 3,800 civilian and federal hospitals given blood.

These are just a few of the services rendered by the Red Cross. With the disaster season just ahead, 180 tornadoes alone expected within the next eight to ten weeks, and disaster funds nearly depleted, the need is greater than usual. When called upon by a volunteer campaign worker give him a cordial reception and a generous gift to help continue these valuable services.

Social Security Reports Required On Household Help

Social security reports are due in April from housewives who employ domestic workers, according to James B. Marley, manager of the Austin social security office. Housewives are required to make these reports during April on household workers paid as much as \$50 in cash wages in January, February, and March. This is the fifth quarterly report due since the new law covered household employees without regard to the number of days worked. Reports are sent to the District Director of Internal Revenue in Austin.

Work of cooks, maids, houseworkers in a private household counts toward eligibility for retirement or death payments under old-age and survivors insurance if they are paid at least \$50 cash wages by one employer in a calendar quarter. If the household employee works long enough to be insured, benefits are payable in old age or to certain survivors in case of death.

Free booklets explaining the employer's obligation and benefits to the employee are available at the social security office in Austin.

REVIVAL NOW

God is speaking to us in these days. Many of you are listening and you are hearing God speak to you. When God speaks and people listen they will be blessed. Hearts are being lifted to God in renewed joy is being experienced. God is doing wonderful things for us whereof we are glad. Souls are being saved. Lives are being remade.

Two days remain in this revival. We must make the most of them. I would call every one of you who love the Lord to be much in prayer, visit the lost and attend each of the closing services. Do not fail now. The destiny of souls is being determined. Be here to encourage them and point them in the right direction.

Some of our faithful members have sickness in the home - Mr. Crow, Mrs. Howard and children, Mr. Scarborough and Mrs. Asher. We regret they cannot be with us. We are expecting our highest attendance Sunday. We want you to be here for Sunday School and Training Union. That is right. Be here for both of them.

Wm. P. Carey Co. In 75th Year Selling Lumber

The William P. Carey Lumber Company of Texas celebrated its 75th anniversary March 10-11 by launching a year-long sales campaign recognizing its three quarters of a century in business.

A company convention held on those dates started the celebration. One of the few Texas companies that can boast a 75-year history, the firm was founded by William P. Carey, son of a lumberman, John B. Carey, former mayor of Wichita Kansas.

The father sold out his string of lumber companies to the Rock Island Lumber Co. chain shortly before his death.

Kansas First

William P. Carey began the business as a partner with his father, but soon branched out on his own. First it was Kansas, then Texas and last the Oklahoma territory.

The elder Carey died in 1915, and the company was taken over by three sons: J. William; Clarence J. and Charles D. Carey. Charles D. is president at this time.

Six Yards In Texas

Other subsidiaries operate six yards in Texas at Abilene, Ballinger, Cameron, Sherman, Corsicana and Colorado City.

In Oklahoma

Remaining entirely in the Carey family, the lumber firm now operates seven yards at Norman, Blanchard, Oklahoma City, Pauls Valley, Sulphur, Tishomingo and

Wynnewood. A subsidiary, Carey Lumber Co. of Capitol Hill operates a yard near the Oklahoma State Capitol in Oklahoma City.

Company officers are: President Charles D. Carey; vice presidents, G. P. Sharpe, Frank E. Carey Jr. and Katharine Carey O'Connor; treasurer, Frank E. Carey Jr.; secretary, William V. Carey; assistant treasurer, Neil Cochran; assistant secretary, E. S. Anderson.

A. E. Matula of Cameron has been with the company more than 25 years along with eight others throughout Texas and Oklahoma. They are: C. J. Hillburn of Abilene; J. E. Haral of Ballinger; In Oklahoma the employees with 25 years service are E. S. Anderson, Neil Cochran, E. B. Jenkins; O. V. Seago and G. P. Sharpe, all of Oklahoma City and R. E. Church of Wynnewood.

What every
young working girl
should know*

The young woman who works today does a pretty good job of taking care of herself. She may have trouble balancing her bank statement—but she knows how to stretch a pay check. She may be vague about figures of the National Debt—but she knows how to keep herself out of the red.

That's why so many working girls are investing in Savings Bonds on the Payroll Savings Plan. They know that it's the simplest, surest way to save—the easiest way for most of us to make our fondest dreams come true. Once you tell your pay office how much you want to save each payday, you can relax and know that everything is being taken care of. Your money will go regularly into U. S. Series E Savings Bonds. And a little money set aside every payday soon grows into big savings, as anyone on the Plan can tell you.

*Notice to all working girls:

It's smart to marry a millionaire, as every woman knows, but until the right millionaire comes along—it makes good sense to invest your hard-earned dollars in Bonds on the Payroll Savings Plan. Then you can make a lot of good things come your way. Like a trip to Europe. Or a car of your own. (And if a man happens along, too—so much the better. You'll need extra money then for things like feminine frills and frying pans.)

So start investing today in Savings Bonds—either on the Payroll Savings Plan where you work or regularly where you bank.

For the big things

in your life - be ready with U. S. Savings Bonds

Spring Flower Show Planned By Garden Club

By Mrs. Albert Horstmann

In a regular meeting of the civic Garden Club on Thursday morning plans were discussed for May 9. This is to be a stand. The tentative date has been set for May 9. This is to be a stand and show in a member's home under the classification of "Home Placement Show". Final details will be made later.

Mrs. Leo Fuchs, president, opened the meeting with the "Legend of the Dogwood."

Mrs. R. G. Grabein, program chair, introduced the program. Members were taken to the "Sunny South", through means of colored picture slides. Mrs. Frank Schiller gave the commentary.

This South Atlantic Region has the largest number of states in the National Council of Garden Clubs. In this area plant materials for gardens are unlimited. It was here that the first Garden Club was organized at Athens, Georgia, using the name of "The Ladies Garden Club of Athens". Pictures were included of the Founders Memorial Garden, honoring the twelve founders. Also gardens of various states of this

Recent Marriage Unites Miss Braden; Edwin Leon Talley

Miss Mary Helen Braden became the bride of Edwin Leon Talley at 3:30 p.m. on February 25 with Dr. Kenneth Copeland officiating at the Travis Park Methodist Church in San Antonio.

Parents of the bride are Mr. and Mrs. Frank Joe Braden, 1304 N. Crockett in Cameron. Parents of the groom are Mr. and Mrs. Henry L. Talley of San Antonio.

The altar was decorated with baskets of white gladioli. John Mzell sang "A Wedding Prayer" and "Through the years" accompanied by Miss LaVern Raynolds.

Ushers were John Schul, Clifford Ohlenburger and David McClauhan.

The bride entered with Alden D. Wood, her brother-in-law, wearing a white orchid carried on a fan of white tulle. She wore a gown of nylon tulle, fashioned with rounded decolletage and dainty cap sleeves sparkling with rhinestones and edged in pleated tulle.

Her bouffant skirt billowed to ballerina length. She wore matching mittens, a coronet of pleated tulle and lace, adorned with pearls and iridescent sequins

held her French illusion veil.

Maid of Honor was Miss Dorothy Jane Plasek of Cameron who wore a dress of blue tulle fashioned with pleated tulle neckline and bouffant ballerina length skirt. Flowers were carnations on a fan of blue tulle.

The couple left for Galveston on their honeymoon following a reception at The Manor House. Miss Jane Ullman assisted Miss Donna Smith at the Bridesbook which listed the mother of the bride, Mrs. F. J. Braden, Miss Dorothy Plasek and Mrs. Pearl Schulz and daughters, the latter of Seguin.

Mrs. Braden wore Navy blue nylon with pink accessories while the mother of the groom wore navy blue linen with blue accessories.

The couple are now at home at 4618 South Presa Street in San Antonio.

Mr. and Mrs. Cecil Plate of Littlefield, Texas; Mr. and Mrs. Ray Burke attended the funeral services of Mrs. J. C. Carnahan of Waco, Monday, March 19.

Raymond Craddock Green Has Third Birthday Party

Mr. and Mrs. Raymond Green helped their son, Raymond Craddock Green, celebrate his third birthday, with a party Sunday afternoon March 4, '36. The little guests played with toys in the decorated party room and were served ice cream, cake and coke along with their Mothers. The big cake had a Cowboy scene on it with three candles.

The little group sang "Happy Birthday". Everyone stayed seated while Raymond Craddock received his pretty gifts and thanked each one in his own manner. A jar of bubble soap, balloons and bubble gum was given as favors to Jackie Raymond, Georgena Anderson, Elizabeth Kirk, Edward Whitley, Richard Mortimer, James Pool, Randall Platt, Don Ward, Patricia Raymond, Paula Bryson, Johnnie Kohl, Lewis Ray and Linda Rylander.

Colored film was taken during party hours. Mrs. Craddock and Mrs. Swanzy assisted with the serving.

On Tuesday March 6, Raymond Craddock had his picture made and received many birthday gifts and cards.

Pleasure, Profit Club Active With Varied Programs

The Pleasure and Profit Club meets today at the home of Mrs. Lee Roy Thompson.

The club has been quite active in past weeks with programs on topics Texas Folklore with a paper read by Mrs. A. E. Jones on the subject.

"You Can Always Tell A Texan" by Boyce House served as the basis for another program when Mrs. Perry Holder was hostess. The members, on this occasion, answered roll call with the title of an "Old Time Revival Hymn". A favorable vote was taken to accept the invitation of the Three Arts Club to hear a lecture arranged by that club with Dr. Arthur Tyson speaking on "The Essentials of a Christian Home."

At earlier meetings "Mexicans Making Texas Today" was the topic used for roll-call with each member answering with the name of a prominent Mexican in the affairs and life of Texas today. Mrs. Charlie Burke was hostess at this meeting.

With Mrs. Shapiro as hostess and the vice-president, Mrs. Don Humble presiding Mrs. Roy Hensley reviewed "The Lady From Arlington," which is the story of Park and Molly Curtis and their daughter Mary who married Robert E. Lee. The historical significance of the story made it most interesting and the manner of presentation made it a pleasure to all. A plant shower was brought to the hostess.

The Library committee told of the fact that a paid librarian is now keeping the Cameron Public Library open now and a letter of appreciation was read wherein the club was thanked for its donation of books at Christmas.

at Waco. She has been invited as a student judge to assist in judging at the Waco Flower Show in April.

The door prize for this meeting was won by Mrs. G. A. McDermott. It was a "Kneeling Pad", for garden use and was presented by Mrs. Roy Wright, winner of the prize at the previous meeting.

"Holiday On Ice" Two Fun Packed Hours At Waco

Clean, wholesome, delightful entertainment for the entire family. Two fun-packed hours.

PEEPS —
"Deacon" Dean White had a wonderful time last week greeting the people as they left his theater. It was the most people he has seen in his theater at one time. Said he was highly impressed not only with the quantity present for the preaching services but also with the quality.

Plonging is a schoolboy word which comes only from un-abridged dictionaries. Schoolboy because they are the ones who delight in taking words out of Noah's little book and using them to confound the reader. An erudite man of the vestments, a very dear friend of mine, felt that the word was not only incorrectly used in reference to "Plonging Depth of Cameron Soul" but was inappropriate after he was shown the definition which said: **PLONGING**, To cleanse by stirring and allowing the ebbing tide to carry off the sediment. Then was added "To be said of sewers." Doesn't a newspaper carry the **POETS LICENSE**. After all I am a poet, as I will prove. Read on.

Oh yes MY PLATFORM. I almost forgot I was a candidate for mayor. I have a **RAILROAD PLATFORM** that is one you can GET IN on but it's too risky to STAND ON. Read on please. I WILL NOT STAND FOR the payment of monies to council members for work they do for the city. I will advocate that someone be IMPORTED from Podunk Center and paid \$1,000 for doing the work that Bob Weems did for \$545.27. Now I'm gonna tell you "I've got friends who were FOR hiring Bob Weems to sign up those people for curbing and guttering and I've got friends who are AGAINST Bob Weems making \$545.27 (they don't object to him doing the work though) and now I'm going to tell you where I stand on this proposition. "I STAND FOUR-SQUARE BEHIND MY FRIENDS." Now, if you like demagoguery you have been demagogged.

Today is the FIRST DAY OF SPRING and so a poem comes to mind. I want you, the reader to suggest a name for this beautiful piece. Here it is: **SPRING**: Oh Oh Spring, oh Spring, oh Spring (that's the first line) O SPRING; O SPRING; O Spring. The name I chose to give it is O SPRING.

ERRATA: We wrote so hurriedly about W. Lee O'Fuchs last week that we put the word vote in the place of RUN. If it takes say five or six or ten names let's say to constitute a MANDATE from the people to get a man to RUN for office I was just wondering how many names it would take on a petition to get somebody NOT to run or that office. Price Daniel got 25,000 letters he said. Max McClaren said that one, signed by quite a number of people in Waco said "DO AS YOU PLEASE... we are going to do all

we can to see that you are defeated." Now isn't that a nasty attitude?

Mrs. E. J. Sebesta Dies At Hospital Services Today

Funeral services for Mrs. E. J. Sebesta, age 63, who died at St. Edwards Hospital Wednesday morning will be held from St. Monica Church Thursday March 22nd at 9 A.M. Services will be conducted by Father Geo. J. Duda with burial in St. Monica cemetery. Rosary will be recited at Marek-Burns Funeral Home Wednesday at 8:30 P.M.

Survivors include her husband, E. J. Sebesta, Cameron; Three sons, Albert Sebesta, Bryan; Alvin Sebesta, Giddings; Ernest Sebesta, Fort Worth; Three daughters, Mrs. R. W. Tehas, San Antonio; Mrs. Marvin Posival, Cameron; Mrs. Charles McDermott, Cameron. Also Nine grandchildren.

Pallbearers will be, Carl Black; Bartle Crenan; Willie Meese; Erskin McDermott; Sam McDermott; H. F. Smith; Jim Perkins; O. C. Angell.

CHAMBER —
and help. Your officers and directors in the new year with your help promise a successful year for the Chamber of Commerce and Cameron will be a better place in which to live.

Prescott read a telegram from Honorable W. R. "Bob" Poage in which he congratulated Cameron on its fine achievements of the past year.

Homer Leonard the featured after dinner speaker left a serious note for the Citizens of Cameron. One which he could not speak of during the program because the emcee Jack Prescott had warned him that he wanted nothing but nonsense and that is exactly what Leonard produced in outstanding fashion. This is what the former newspaperman Leonard wrote for the press: "Good towns don't happen by accident, but they come about only through hard work on the part of a lot of loyal citizens who, day by day dedicate and rededicate themselves in the service of their community. That is the kind of folks you have here in Cameron and that's why your future holds the brightest of promises."

New members of the Junior Chamber of Commerce, elected on Monday before the meeting were announced and introduced at the meeting.

Richard Williams was named president with Don Humble vice president and Ben Magness secretary treasurer. Milton Brown will be State Director.

The Board of the Jaycees for the new year will be Dr. George Bowman, Jack Slaughter, Dick Stedman, Jimmy Wiggs, Glenn Abercrombie and Danna Kesten-

baum.

The immediate past president of the Chamber of Commerce Bill Burns, in a fashion the famous Arkansas Philosopher, Bob Burns, told of the trials and tribulations and the final successes of the year past. His contribution to the meeting as a speech maker was only inhibited by the brief time allotted by the time-wise emcee.

Homer Leonard the comedian, after dinner speaker told of the woman who married first a banker and then a showman, next a preacher and then an undertaker. This multiple marriage was referred to as being "One for the money, two for the show, three to make ready and four to go." This is only a sample of the fun provided by the inimitable speaker.

Prominent guests attended from Marlin, Bremond, Rosebud, Waco, Bryan, Killeen, Thorndale, Hearne, Rockdale, Dallas, Temple, and Ennis.

Colonel and Mrs. Jay M. Holmes of the Walled-Lake Door Company were present to receive the accolade of the citizens of Cameron.

Past President Burns referring to the newcomer Colonel Holmes said that already the Colonel has told him about things which happened in Cameron and in Buckholts forty years ago declaring that the vice president of the new door company is outstanding at the art of "Getting acquainted."

YOE —

There will be first, second and third place medals for all running and field events. Also a trophy for high-point man is offered and for the school as well as for the mile relay team.

Waco captured first place in 1955 with thirty-two and a half points. Bobby Cline of Belton was high point man with ten points. During the '55 meet there were ten records broken.

Leo Jackson reported that the track is in excellent condition for the meet this year.

There will be about fifty people assisting with the meet and stations KTAE, Taylor and KMIL. Cameron will broadcast the meet. Abe Houston will be the official starter.

APPEAL —
Langford's own audit, which plaintiff introduced, shows this conclusively. There is no evidence of fraud or bad faith on the part of the defendants in any of these transactions, but, on the contrary, they more than complied with all their obligations to Langford. Pic-kens and Coffield acted in said transactions with fairness and the utmost integrity."

The opinion by Associate Justice Robert G. Hughes noted that the appeal involved 433 pages of transcript, 1,386 pages of statement of facts, and 111 pages of motion for new trial. The civil appeals opinion added that Langford "made no effort to refute this finding by citing any evidence to the contrary."

Yoe Director Is Judge In Region 6 Band Contests

Francis Cox, Yoe High Band Director left Wednesday for San Antonio where he will be a band contest judge at the Alamo Heights school. The contests are being held today and tomorrow.

The region 6 territory in which the contest is being held extends from just below Williamson County to just above the Rio Grande Valley, swinging west to Uvalde and east to Columbus. The contests will feature the concert playing events, together with instrumental solos, ensembles and student conducting.

The judging corps will be housed at the Western Courts, just outside of Alamo Heights.

If the contests terminate during the afternoon of March 23 Cox intends to return to Cameron that night, otherwise he will be home on Saturday morning, he reports.

well-wishers present to bid the family bon voyage, gathered at the home of Mr. and Mrs. Milton Brown recently.

Born in Rockdale, Crit attended the Rockdale schools and immediately after graduation began his present career with the Gaither Motor Company in Rockdale. After two years with Gaither he moved to Cameron where he met and married the former Ruth Griffith.

During World War II he served 2½ years in the Navy. He has been a member of both the Junior Chamber and the Chamber of Commerce here. The family belongs to the First Methodist Church.

Eighth Grade Gives English Lesson Display

Students in 8A and 8B go to the Adams-Brady Service Station for their connectors.

The all important connectors or conjunctions taught by Mrs. Kate Adams and Leon Brady in eighth grade English are WHEN IF, WHICH, AFTER. These good connectors are to be obtained at the Adams-Brady Service Station according to a drawing by one of the students. The OLD WORN-OUT connector A N D should be exchanged at the service station according to the picture.

"Studies of Today make leaders of tomorrow," says one of the placards on the background. Studies referred to directly by the eighth graders are 1. Citizenship 2. Reading 3. Writing 4. Arithmetic 5. English 6. Spelling and Geography.

It was remarked by one of the teachers that little over nine weeks and many of the students who contributed to the display would no longer be in Ada Henderson but would be Yoe High School Freshmen.

Joe Walzel Wins Certificate In Poultry Judging

The largest FFA judging contest ever held at Southwest Texas State College took place Saturday March 17 with San Antonio's Northside High School Future Farmers of America team winning the sweepstakes banner.

Buda's FFA teams won firsts in two divisions, but failed to collect enough points in either of the other two divisions to take sweepstakes.

Competing against a field of 800 boys from some 100 high schools, the Northside teams won second in milk production, fourth in poultry and eleventh in livestock to take sweepstakes winner honors.

Second place in the sweepstakes went to Llano with New Braunfels and Lockhart tied for third and Buda ranking fifth.

Buda placed first in dairy cattle and livestock judging. New Braunfels was second in dairy and Rockdale third. Medina placed in livestock with Bandera ranking third.

Troy won milk products judging and San Saba came in third. Top honors in poultry went to Cameron with Luling, second, and Llano, third.

Banners were awarded to the three teams making the highest scores in each event. Certificates of merit were awarded to ten individuals making the top scores in each contest.

Milam County Certificate winners were; Joe Walzel, Cameron, poultry; Gene White and Dan Jenkins, Rockdale, in dairy cattle; Hal Lester Senkel Buckholts, in milk production judging.

Mr. E. B. Tindall, 67 Dies At St. Edwards Services Tuesday

E. B. Tindall, 67, died early Monday morning, March 19, at St. Edwards Hospital after a long illness. Mr. Tindall was born and reared in Milam County.

Up until 10 years ago he was a farmer, moved to Cameron where he owned and operated a neighborhood grocery.

Among his survivors are his widow; two sons, John Ed Tindall of Freeport and Carroll "Pete" Tindall of Houston; five daughters, Mrs. Bert Kennedy of Freeport; Mrs. A. D. Mims, Mrs. A. L. Burdette and Mrs. Gene Davis, all of Houston, and Miss Delores Tindall of Cameron; one stepson, Joe Hawkins of Rosebud; one stepdaughter, Mrs. Frank Lima of New Mexico. Two brothers, H. C. Tindall and John Tindall both of Cameron; Two sisters, Mrs. John

Hobson and Mrs. Annie Short of Cameron. Eight grandchildren and five step-grandchildren also survive.

Funeral services will be conducted Tuesday, March 20, at 2:00 P.M. at First Baptist Church with Rev. P. L. Caperton, pastor, officiating. Burial will be in the First Baptist Church cemetery. Interment in Oak Hill cemetery.

The body will remain at The Chapel of Green's Funeral Home until the funeral hour.

Infant Daughter Of Leland Garrisons Dies At Home Here

Mary Helen Garrison infant daughter of Mr. and Mrs. Leland Garrison died at her home on the Milano Highway, Friday morning March 16.

Funeral Services were held Saturday March 17 at 3 p.m. at the Church of Christ in Cameron with Rev. J. R. Stewart of Waco officiating. Burial was in Sand Grove Cemetery with Green's Funeral Home in charge.

Surviving are her parents and two others, Tommy and Stanley also one sister Patricia.

March 31 Ends Wool Incentive Program Year

March 31 is an important date for wool growers in that it is the final date that marketings of wool and lambs will qualify for payments under the current wool incentive program year. The point is stressed Hubert L. McClaren, Chairman of the Milam County Conservation Committee.

Those who still have 1955 clip wool to sell and those who shear early this spring and sell their clip on or before March 31 will qualify for the wool incentive payment for the current year. Payments on such sales will be made this summer or early fall. There is no need for hasty or premature marketing this spring because wool and lambs sold after March 31 will qualify for payment under the 1956 program year which begins this April 1. Payments based on sales made after March 31 will not be made until mid-summer of 1957.

Ten Promoted By National Guard

Promotion of ten enlisted men of Battery C, 649th Anti-aircraft Artillery Battalion was announced during the drill period last week, the local National Guard unit reported today.

Six of the promotions, it said, were made to the new grade of Specialist 3, which corresponds to Corporal. They were received by Pfc's. Edward P. Brady, Jimmy L. Crook, Benny C. Massengale, Donald E. Shuffield and Bobby B. Williams.

Four other Guardsmen got their first stripes on being promoted to Private First Class. They were: Pvt's. James L. Bales, Hugh D. Bowley, Steve S. Vansa and Maurice J. Woytek.

Battery C also said that two new enlistments and one re-enlistment were made in the unit during the past few days.

The two newest Guardsmen, it said, were Raymond M. Rydell and Johnny C. Gelinek. Both are students attending local high schools.

The re-enlistment was made by Cpl. Stanley R. Glaser, who re-upped for another three year term. Glaser is a squad leader assigned to the Gun Section.

Ben Arnold E&R Members Hold Steward Meet

The United Women's Guild of the Evangelical and Reform Church of Ben Arnold discussed the subject "How To Deepen Commitment To God" in a recent meeting.

Stewardship Chairman Anna Juergens was in charge of the devotional topic. "Are we making the best use of Bible Study and private and corporate worship to help us grow in Christian life understanding our neighbor's need and sharing in the world's suffering? The devotional leader asked.

"Are we really well-informed, mature Christians who understand our faith so that we can witness to it to all who come to us?" she prodded and then put the pertinent question for her hearers to answer to themselves "Is our Christian commitment so real that we trust God's power within us and dare to accept responsibility and to act like Christians even when it is unpopular or dangerous to do so? and then finally "Do we feel that we have a responsibility to our community, our nation, and our world? With the putting of this series of questions and discussion by the speaker each hearer was thus challenged to answer each and thus "write his own answer to the main topic.

The Brotherhood members joined in the devotional services with each group holding separate business meetings.

Reverend and Mrs. Gerald Cobb were welcomed into the groups. Leona Rummel presided. Gertrude Barkemeyer was appointed to serve the unexpired term of the treasurer Fay Kobutek.

The guild voted to buy curtain rods for the parsonage.

Ena Kalkbrenner, chairman of the Eden's Home For the Aged in San Antonio, stressed that every woman of the church is a member of the guild and that the Eden Home is a project of the Waco Regional Guild and all local guilds will participate in furnishing the kitchen for the home.

4-H Club Member Offered 48,000 Project Awards

Awards for 48,000 Club members are offered in the first announcement of 1956 National 4-H Award Programs by the National Committee on Boys and Girls Club Work, Chicago.

County, state and national winners in 4-H Poultry, Garden, Dairy and Entomology programs will be honored for outstanding achievement. Boys and girls are urged to begin now to keep accurate records of their accomplishments, since the awards will be made on the basis of the reports submitted by the 4-H members.

In the National 4-H Poultry Award Program, a new donor of awards, the Sears-Roebuck Foundation, is making available four gold-filled medals for winners in each county; an all-expense trip to the National 4-H Club Congress in Chicago for the state winner; and \$300 scholarships for six national winners.

Four county winners in the Garden program will receive medals of honor. The Allis-Chalmers Mfg. Co. Tractor group also provides expense-paid trips to the Club Congress for state winners, and eight \$306 scholarships for national winners.

Incentives offered in the National 4-H Dairy program by the Laro SureFeed Division of General Mills include four medals for winners in each county; an all-expense trip to the Club Congress for the high-ranking member in the state; and six \$300 scholarships for national winners.

For the fifth consecutive year, the Hercules Powder Company is providing the incentives in the Entomology program. They include medals for four county winners, a trip to the Club Congress for the state winner, and a \$300 scholarship for each of the six top-ranking 4-H'ers in the nation.

Complete information on the award programs is available at county Extension offices or from the State 4-H Leader.

Beef And Pork Top April Meals

Beef and pork top the U. S. Department of Agriculture's plentiful foods list for April.

These two meats got the top rating because supplies are so heavy and prices so favorable to consumers.

Onions made the list for the first time this spring. Potatoes and dry beans are also listed. Fruits on the April list include canned and frozen cherries, grape fruit, canned kadota figs and dates.

Supplies of milk and other dairy products continue to increase with the advent of the spring season.

Broilers, fryers, rice, lard and peanut butter round out the plentiful foods list for April.

were given blue and gold pins with the inscription CSA on the crest.

Following the meeting a social was held.

Tracy, Lilac, Sharp Church Women To Hear Rev. Sandman

The Rev. Robert Sandman, Supervisor of the Texas Migrant Ministry of the Texas Council of Churches in Austin will present the Work of the Migrant Ministry to the ladies of the community churches of Tracy, Lilac, and Sharp at a meeting held in the Sharp Presbyterian Church at 2 P.M. on Friday, March 29.

Plans for a possible week and activity period for children of the Migrants will be discussed, with the four Churches, Lilac Baptist, Sharp Lutheran, Tracy Methodist and Sharp Presbyterian as possible joint sponsors.

Refreshments will be served by the Presbyterian ladies.

Employers Of Four Or More Now Must Report Payroll To State

92 employers in Milam County became liable under the amended Texas Unemployment Compensation Act January 1.

And, James H. Berry, Office Manager, advises these employers that establishing payroll reporting accounts with the state office of the Texas Employment Commission, Brown Building, Austin, will help avoid penalties and assessments of back taxes.

An amendment to the state's unemployment compensation laws extended coverage to all employers with as many as FOUR employees on 20 days in 20 different weeks, Berry said. Prior to January 1, 1956 only firms who hired eight or more were affected.

"The expanded program also covers a small business which has four people working only Saturdays, or one which regularly has two employees during the day and two others at night."

The state program was extended by the 1955 legislature to conform with Federal statutes al-

ready enacted. "Otherwise," stated Berry, "Milam County employers of four to eight people would not have the advantage of the Texas system of possibly reduced taxes because of employer experience ratings. And early action will mean earlier eligibility for reduced tax rates."

Combined Federal and state taxes begin at 3 percent of each annual wage up to \$3,000. However the state's program provides for possible minimum rate of one-tenth of one percent, and the 1955 average rate for rated employers was .22 percent. The net Federal tax is three-tenths of 1 percent in addition to the state tax.

Any Milam County employer of four, five, six or seven persons for 20 weeks during 1955 should request explanations of the state TEC office about complying with the program, Berry added.

Dear Broiler Grower

Dear Broiler Grower:

We are pleased with your cooperation and promptness in meeting your sponsor and getting your chickens last week. Hope you much success with your broiler program.

Again, we would urge you to give your chickens a good chance by feeding them a good broiler ration for 7 weeks. Feed a broiler finisher the last 2 weeks. When the chicks are about 10 days old, you may feed yellow corn meal on top of the mash feed, twice daily. If you put out a full trough of yellow corn meal, the chicks may eat more corn than mash and fail to make the rapid growth they would get from the mash feed.

After the chicks are 1 month old you may feed a wet mash at morning and night. You make wet mash by wetting a portion of the regular mash with milk or water. As the chicks get older, you may beat up a few eggs and add to the mix. Wet the feed just enough to where it will stir into a crumbly form. Feed in a shallow pan or trough. Feed only the amount of wet mash the chicks will clean up in, say 10 minutes.

Be sure and not get your chicks too war mand give them some fresh air. Ventilation will encourage rapid feathering. The chicks should have 1 square foot of floor space each. If they start pecking one another, this indicates you have them too warm and too crowded. Give them more fresh air and room to correct this trouble.

You should be able to get your top birds to weigh 3 lbs or better in 9 weeks.

After the broilers are 6 weeks old, you may want to separate your pen by using a piece of poultry wire and put your best broilers on one side to give them a little special care. Do not turn your broilers out in the yard. If you do, they will not make good gains.

If we can help you, be sure and let us know.

Your County Agent

The Junior Broiler Contest was off to a bang when the day old chicks were given to the 125 growers by their sponsors on the courthouse lawn Friday afternoon March 9 at 4 p.m.

Following are the growers and their sponsors. After nine weeks of growing the youngsters will bring their five best broilers back to the courthouse lawn for judging.

The 25 growers entering the best growing records and birds in the contest.

The grower and his or her sponsor will attend a banquet together.

ODDLY ENOUGH by WALDMAN

Before winning the Battle of Waterloo in 1815, Wellington drank cup after cup of tea, telling his generals that tea cleared his head and relieved him of nervous tensions.

To relieve modern conditions of stress, Dr. Alfred H. Lawton, U.S. Air Force Medical Research advisor, says tea "is as good an agent for the relief of fatigue as has yet been offered." Tea gives an immediate lift, without a let-down, and "facilitates mental and muscular efforts."

Bob Poage Writes

Dear Friends:

Most of you know that I have long been deeply interested in the development of a workable Flood Prevention program, both because of the importance of preventing as much flood damage as possible and also in order to achieve the maximum and water conservation. Many of you will remember that I sponsored the present Flood Prevention Bill. That bill was considerably amended and weakened before we finally secured its passage a couple of years ago. It has never provided the effective stimulus for Flood Prevention I had hoped. I have

thought, at least in large part, that this was because of the small appropriations available and because of the small appropriations available and because of the relatively large local contributions which Secretary Benson has required.

Last year, the House and Senate each passed slightly different bills amending the Reclamation laws. Both of these bills, which are still in "conference" between the two Houses, provide for the extension of the activities of the Bureau of Reclamation so as to pay the entire cost of small dams which may involve Flood Control Flood Prevention, Water Storage, or Irrigation. One of the bills would confine the activity to the 17 Western (or Reclamation) States while the other one would allow the Department of Agriculture to do a similar work in the other 31 States. In either event the Federal Government would pay for many of the activities which are chargeable under our Flood Prevention Act to the local people.

I don't think anyone can very seriously argue that it is right for the Government to pay all the cost of storing water in a dam built by the Department of the Interior and to charge the local farmers for that storage if they built a similar dam with the cooperation of the Department of Agriculture. Nor do I believe that it would be sound to have two similar programs, even if both are administered by the Department of Agriculture, with one requiring substantially more from local people than the other. The local contributions to the programs should be comparable. I think that there

should be some local contribution, but I have long been convinced that the Department of Agriculture has been asking too much. Both Houses have already voted to require the Federal Government to pay a larger share through the reclamation program. I, therefore, introduced a bill to reduce the local contribution required under the Flood Prevention Act. If this bill passes, as I hope it will, the local people will generally be required only to supply the rights of way, the land treatment on their own land, and to operate the program just as they are now required to do on the pilot watersheds like Cow Bayou.

Telephone Growth Boosts Prosperity

Here are some facts about what's behind your telephone, what it takes to meet the needs of people all over Texas for telephone service.

Last year Southwestern Bell spent \$91 million on new construction and \$150 million for day-to-day expenses in Texas. In one way or another, nearly everyone in Texas benefited from this expenditure to keep your service going—and growing.

One result, we hope, was the best telephone service you've ever enjoyed. Another result, we are sure, was a healthy boost to the prosperity of the entire state.

For example, \$104 million (one of the state's largest business payrolls) went into the pockets of 26,000 Texans who work for the telephone company. And most of this was spent in communities like ours for all the many goods and services which local merchants and businessmen provide.

How Others Benefited From Telephone Activity

Another \$1,500,000 went to Texas service stations and garages to help keep the company's fleet of 3,529 trucks and automobiles rolling. This included the cost of 2,919,880 gallons of gasoline, as well as tires, accessories, repair parts and \$500,000 in direct labor costs.

Three hundred twenty-six Texas automobile dealers profited from the sale of 589 new trucks and 110 new automobiles to the company.

Those in the building industry were paid \$7,500,000 for their work on new buildings, additions, and major improvements. New building activity alone involved 254 different contractors directly and provided enough work to keep 4,500 skilled carpenters, bricklayers, plumbers, electricians, and other craftsmen busy full time for a year.

In addition, we paid \$4,665,000 to independent contractors for jobs ranging from tree trimming to laying underground cable conduit.

Another \$2,618,000 went to local suppliers of office furniture and fixtures, printing, office supplies, and the hundreds of sundry items to carry on our business. And \$840,000 additional went to local people and firms outside the company for building maintenance and odd jobs, ranging from window washing to trash handling.

'56 Construction to Break All Records

This year's construction program will add up to \$106 million, the largest in our history.

Many long months of planning and engineering have gone into this 1956 program. It is based on the company's faith that the Texas communities we serve will continue to grow and prosper—and on our ability to attract more, new investment dollars from outside the business.

To meet your needs for more and more telephone service, we must depend on finding people in all parts of the country who are willing to invest their savings in our business.

So, you see, one of the very important factors of good telephone service is the faith of investors that their savings can earn a safe and reasonable return in the telephone business. Another is the public's faith in us as one of the state's most necessary citizens, an important contribution to continuing prosperity.

Do-It-Whose-Self?

Monk McCarthy's almost as and at publicity stunts as he is servicing and repairing cars—both is pretty darned good.

His latest gimmick is a hand-bill titled: "Do-It-YOURSELFERS! Why Not Grease Your Own Car?"

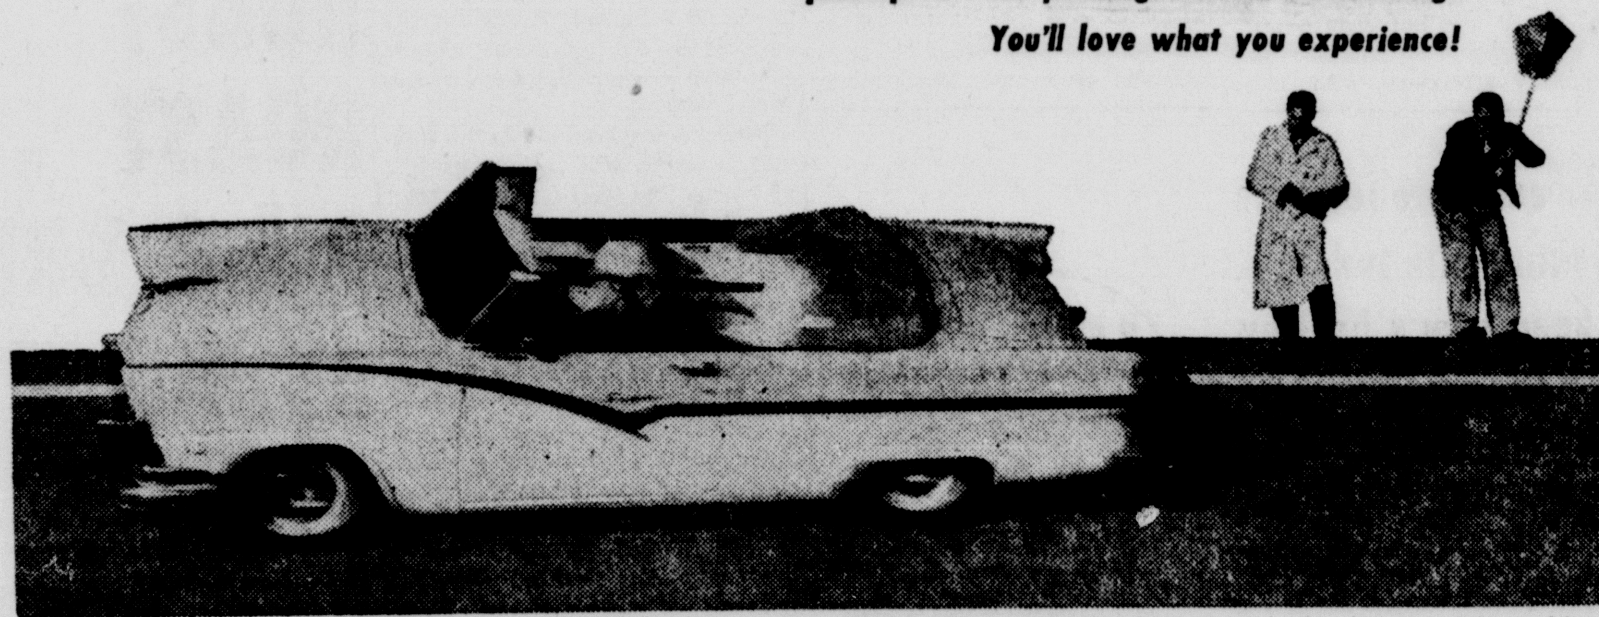

Then he follows with two paragraphs about all the greases you'll need—the full set of wrenches, spray gun, grease gun, four jacks—the ability to work flat on your back with a face full of goo. And at the very end there's this line: "Or, if that's too much trouble, we'll do the job for 75¢."

From where I sit, I'll have to admit Monk's schemes attract attention. They often seem far-fetched to me, but he and I always had different opinions on how to run a business—just as we have different opinions about what's the best beverage. He likes hot tea—I prefer a glass of beer—which doesn't keep us from having a "smooth-running" friendship.

Try the V-8 that smashed 30 world records in one day!

Discover what happened at the thrilling Kingman, Arizona performance run! Try this Ford yourself . . . for pick-up . . . for passing . . . for hill-leveling! You'll love what you experience!

Photographed at world's most modern test track—Ford's new desert proving grounds at Kingman, Arizona.

It's the 225-h.p. Thunderbird Special V-8 you can have now in Ford!

At 6 p.m. on Saturday, February 25, a '56 Ford set out to re-write the record book at the new Ford Proving Grounds, Kingman, Ariz. Just a little over one hour later, this 225-h.p. Ford had set 30 new world marks—ranging from short runs to 100-mile performance! To you this record-breaking performance promises the most exciting response ever delivered for so little money. Hills you've long known will disappear. Stop lights will be fast fading memories within instants after your foot nudges the throttle. And when it comes to passing, you'll pass in a wink with plenty of "whoosh" in reserve.

Thunderbird looks, too

But you get more, than record-breaking performance when you drive a Ford V-8. You get the long, low look of the Ford

Thunderbird. It's the kind of sleek, years-ahead styling for which Ford is famous.

Let Lifeguard Design Start Protecting You

And, of course, you get Ford's exclusive Lifeguard Design. Among all cars in the low-price field, only Ford gives you this extra protection. Doesn't your family deserve this extra safety in the event of an accident?

More real economy, real stand-up

So whether you judge a car on performance . . . or safety . . . or styling, it's easy to see that your best buy is a Ford V-8. And as an added benefit, you get the economical upkeep and built-in value that are part of the Ford tradition. So . . . come

in today, won't you? Slide behind the wheel of this 225-h.p. Ford that set 30 world performance records! Take it out on the road . . . and let it whisk you from "whoa" to GO as you've never gone before! When you return you'll understand why Ford is the V-8 with the world's biggest following.

"Cotton Team" At Farm Bureau Here Tonight At Yoe

A "cotton team" from A & M
College composed of Fred Elliott,
Cotton Work Specialist, Dr. Free-
man Fuller, Entomologist, and
Howard Zuch, Cotton Fiber and
Cotton Gin Specialist will give a
program for the Milam County
Farm Bureau on Thursday night
March 22, 1956 at 7:15 P.M. The
meeting will be held in the Agri-
culture Building of the C. H. Yoe
High School, Cameron, Texas.

John A. Smith, President of the
Milam County Farm Bureau ur-
ges all farmers in this area to at-
tend this meeting as some very
interesting and worthwhile infor-
mation will be given by this group
of men who are well versed in all
phases of cotton planting growing
and harvesting.

Refreshments will be served by
the ladies of the program commit-
tee.

An estimated 6,200,000 acres of
Texas crop and pasture lands
were under irrigation last year.
Grain sorghums and cotton were
the leading crops irrigated.

Big and great as the Lone Star State

...WITH A LOW PRICE TAG TO BOOT!

It's your kind of car... this handsome, rugged Texan by Dodge! At the very first glance, you'll know this is true. And when you take the wheel and "give the gun" to its mighty, aircraft-type, Super Red Ram V-8 engine, your enthusiasm will burst all bounds. For the Texan boasts a power-plant just like the sturdy Dodge that made automotive history on the celebrated Bonneville Salt Flats in Utah.

Surely you've read or heard recently how a '56 Dodge stock car shattered 306 AAA records for endurance and speed in that sensational 14-day, non-stop run. In this officially witnessed performance, Dodge covered the first 10,000 miles at an average speed of 105.43 miles per hour... then went on to cover more than 31,000 miles of round-the-clock driving at a record-breaking clip. This is the greatest distance at the fastest pace any car has ever travelled.

Now this handsome, flair-fashioned, specially trimmed Texan offers you the same rugged endurance and the same eager power as the Dodge that established these records. What's more, your biggest surprise is still to come!

Most likely, you'd expect to pay a pretty price for a great car like this. Not so! The Texan is priced right down with the so-called "low-priced thrpe." Yet it's big and powerful and luxurious... actually rivaling cars costing as much as a thousand dollars more!

Never will you find a better "buy" nor make a better deal than your nearby Dodge dealer will give you today. Come in today and see the Texan close-up. Then judge for yourself.

LITTLE RIVER PHILOSOPHER COMES TO CONCLUSION FAMILY-SIZE FARMS NOT THE ONLY SURPLUS ENTERPRISE.
Editor's note: The Little River philosopher on his Johnson grass farm on Little River is confusing the surplus problem, his letter this week reveals.

Dear editor:
I hate to say this, but I have come to the conclusion that a majority of the people in the United States are surplus.

I came to this conclusion while of the farmers are producing 90 percent of the agricultural products of this country, consequently all the worrying over the little farmer, the family-size farmer, reading an article in a newspaper which I found near my neighbor's mail box, if it fell out, I didn't see it, and a man without drawing on his imagination

in this life.
According to this article, an economist, in reviewing the farming situation, said that 40 percent is unnecessary, they could all disappear and the country could still have more than enough to eat and wear from the big farmers who are producing 90 percent already, which is about 10 percent too much anyway.

Well, he may be right, and I got to thinking. I don't have the figures, but I imagine 10 percent of the car manufacturers are producing 90 percent of the cars and could do better, consequently a majority of the car factories really are surplus.

I don't know how many filling stations there are in this country, but I have an idea about half as many could fill up all the cars satisfactorily, and if you want to get down to it, judging by the number of empty seats there are every Sunday, there may even be more churches than the people are using. Also, I've never seen a shoe store that didn't have more shoes than it could sell, and I doubt if half the bicycle manufacturers are really essential.

You could apply this all down the line, and come up with the discovery that about half the people are doing things which may not be essential to life in this country, and there may not be any essential need for not only family-size farms but family-size tailor shops, family-size drug stores, family-size banks, small-size counties, medium-size states, and two-thirds of the nations on earth.

In fact, 90 percent of the work of Congress may be done by about 40 percent of the Congressmen, and come to think of it, you and me may not be exactly essential to the future of the country either.

There may be more surplus people and enterprises than we ever realized, but I for one ain't willing to call the whole thing off. I may not be essential to the country, but I feel pretty essential to myself.

Yours faithfully,
J. A.

KTBC-TV "Editors Scrapbook" "Gives Bit Of Americana

KTBC's News Editor, Paul Bolton, gives the editors and publishers of small-town newspapers credit for reflecting a great deal of American history in their papers. Bolton, a familiar personality in Central Texas via his early-morning radio broadcasts and his evening TV shows on KTBC, has begun a new radio program called "EDITOR'S SCRAPBOOK."

It is heard every Sunday morning at 8 o'clock on KTBC RADIO, and features the cream of the week's reading in weekly and daily newspapers in small Central Texas towns.

In "EDITOR'S SCRAPBOOK" Bolton presents items ranging from editorial comment of the writers to features on personalities in the community. Editors throughout Central Texas send their papers to Bolton and he clips his articles from them. Every Sunday morning his program discussions includes comments from newspapers covering a wide area of Central Texas.

Story of Easter Eggs

THE CUSTOM OF COLORING EGGS IS AT LEAST 5000 YEARS OLD. THE ANCIENT PERSIANS AT THEIR FESTIVE CELEBRATIONS OF THE RETURN OF SPRING (HELD APPROXIMATELY AT THE SAME TIME AS EASTER) GAVE COLORED EGGS TO ONE ANOTHER AS TOKENS OF GOOD WILL.

WHEN TEACHING THE CHRISTIAN FAITH, THE EARLY APOSTLES SAW NO HARM IN ADAPTING THE POPULAR PAGAN CUSTOM OF COLORING EGGS TO THE CHRISTIAN CELEBRATION OF EASTER. THEY THOUGHT THE EGG, WHICH HAD BEEN A SYMBOL OF THE RENEWAL OF LIFE IN SPRING, NOW REPRESENTED THE RESURRECTION.

THE DUTCH SETTLERS OF PENNSYLVANIA AND NEW YORK WERE THE FIRST TO BRING THE CUSTOM OF COLORING EGGS TO AMERICA. EASTER (OR PAAS DAY AS THEY CALLED IT) WAS A TIME FOR GREAT CELEBRATION AND THEY COLORED LARGE QUANTITIES OF PAAS EGGS TO USE IN THEIR FESTIVITIES.

Mrs. Musick proposed that the draft registration card be redesigned to include the county of residence, which is not now shown on the registration form.

"This is a highly sound and constructive suggestion," Colonel Schwartz said, "as it will eliminate something we have had trouble with in the past. Sometimes we have cards getting into the wrong boards after registration, when the boys live on rural routes. The routes cross county lines, but draft board jurisdiction doesn't. With the county on the card, we won't have this trouble any more."

This makes the second time Mrs. Harris has won a government cash award for suggestions. Several years ago she and Mrs. Jewel A. Allen, draft clerk at Nacogdoches, shared a cash award for a transportation suggestion which saved Texas Selective Service at that time a total of \$10,000 a year in travel funds.

General Hershey described both suggestions as resulting in "improvement and economy of operations." Colonel Schwartz expressed pride in the awards.

"I am proud of these two employees," he stated. "They have brought great credit upon the administration of Selective Service in Texas."

Ranch magazine suggested to religious leaders of a few southern states that they set aside one Sunday each year to remind their congregation of man's duty to be a good steward of the soil.

The response to this suggested movement by ministers and laymen were so great that observance of Soil Stewardship Sunday spread rapidly to numerous other states within the magazine's area. In 1954 the publishers of Farm and Ranch suggested to the National Association of Soil Conservation Districts that wider national observance of Soil Stewardship Sunday could aid materially in bringing about a national reawakening of man's obligation to the land. The National Association of Soil Conservation Districts was pleased to accept this offer and assume responsibility for encouraging nation-wide observance of Soil Stewardship Sunday.

The supervisors of the Taylor Soil Conservation District in cooperation with the National Association are again sponsoring Soil Stewardship Sunday this year throughout the district. In past years many ministers of the various denominations throughout the district have participated in this movement and have devoted one sermon on this day to soil stewardship. The supervisors hope that they will participate again this year. They have arranged for informational material to be distributed to the ministers for their use in preparation of sermons for this occasion. This material contains background information on Soil Stewardship Sunday, excerpts from sermons that have been delivered on the theme of soil stewardship, selected references from the Bible and other material.

ELECTRIC, of course!

Note that we said, "Cooked electric." That's important, for you can rely absolutely on your electric range to roast lamb or any meat just right. Measured heat is the secret. You determine cooking time and temperature by setting the dial and your electric range does the rest, accurately, automatically... maintaining the exact degree of heat you need. Yes, for cooking that's tasty, easy, and economical, rely on an electric range. Visit your electric appliance dealer tomorrow and have him show you the modern electric ranges.

Electric heat is as clean as light, so pots and pans stay shiny... kitchen walls and decorations will stay clean longer, too!

Longleaf Pine Pays Its Way On Rundown Woodland Says USDA

Visitors here Saturday were Mrs. Vince Lessikar of Cameron and her daughter-in-law, Mrs. G. V. Kahler and sons, Ronnie and Wayne of Dallas. The Kahlers, former residents of Buckholts, are spending the weekend in Cameron as guests of the Lessikars.

Mr. and Mrs. Alvin Rinn of Sharp were visitors in Buckholts Saturday afternoon.

Mr. and Mrs. H. E. Garlicks weekend guests were her nephew and family, Mr. and Mrs. Ray Patisillo and son, Raymond Lockett of Houston. They were accompanied by an aunt, Mrs. C. A. Price, also of Houston. Mrs. Price joined the family here Sunday after stopping in Cameron for a visit with relatives.

Mr. and Mrs. H. W. Frazier and son, Donald spent Saturday in Austin, where Mr. Frazier has been receiving medical treatment.

Mr. and Mrs. Ed Kalba spent the weekend at Rockdale visiting her brother, Ed Prewitt.

Mr. and Mrs. Clinton Grimm and son Thorndale, former residents of Buckholts, were Sunday guests of Mr. and Mrs. Robert Jungmann.

La Mar Gresak, Sammy Skrahak, James Edward Glaser, Kenneth Janicek, Joe Chevalier, Hal Lester Senkel, Stanley Glaser and their sponsor, Mr. Cornelius Tisworth, Voc. Agriculture teacher, spent Saturday, March 17, at the San Marcos College farm attending a judging contest for farm animals. Buckholts poultry division won 4th place and the livestock division won 5th place. Accompanying the group was Mrs. Tisworth and sons who spent the day visiting relatives.

Mr. and Mrs. Leon Brady and children, Michael and Janie Lon spent the weekend in San Antonio as guests of her sisters family, Mr. and Mrs. John Busby and brothers family, Mr. and Mrs.

For those wondering if it pays to build up rundown farm woodlands to grow continuous crops of longleaf pine timber, the southern forest experiment station of the Forest Service in the U. S. Department of Agriculture has released the results of an experiment on the Escambia Experimental Forest near Brewton, Ala.

Forty acres put under systematic forest management in 1947 have produced \$3,100 worth of timber products from sale of poorer trees.

The 40 acres selected for this experiment were considered typical of many rundown farm woodlands. There were some good trees, but many more poor trees, lots of scrub oak, and only one-third of the area was stocked to pine. In 1947, the timber stand was measured, pine growth was estimated and annual cuts were started. Each year's cut has been less than the growth. Poorer trees are being removed first, leaving better ones to grow and improve the stand. Scrub oaks have been killed and bare areas burned to help establish longleaf pine seedlings.

Harvest from the 40 acres during the past 8 years totaled 197 poles, 23,000 board-feet of sawlogs, 62 cords of pulpwood, 21 barrels of gum, 24 cords of fuel wood, and 389 fence posts. Total value of these on the stump is \$1,190. At the market the value is \$3,100. If a farmer did his own harvesting on such a lot, costs would total about \$820, leaving him a profit of about \$2,280.

The Forest Service experiment indicates that a farmer can profitably manage longleaf pine as an annual crop. It is pointed out that he need not cut trees each year; it might be better in some cases to cut every fifth year or so. Also, at current high stumpage prices, many farmers might find it best

TORNADO INFORMATION

WHERE TORNADES CAN OCCUR:

Any place in the United States at any time of the year. They happen most frequently in the midwestern, southern and central states from March through September.

HOW OFTEN DO THEY OCCUR:

The records show that the average number of days with tornadoes varies from about 12 per year in parts of the Mid-West to less than one per year in the Northeastern and far Western states.

HOW TO RECOGNIZE A TORNADO:

Usually observed as a funnel-shaped cloud, spinning rapidly, and extending toward the earth from the base of a thundercloud. When close by, it sounds like the roar of hundreds of airplanes.

TORNADO "WEATHER":

Hot, sticky days with southerly winds and a threatening, ominous sky. However, many such days occur without tornadoes.

CLOUDS:

Familiar thunderstorm clouds are present. An hour or two before a tornado, topsy-turvy clouds appear sometimes bulging down instead of up. The clouds often have a greenish-black color.

PRECIPITATION:

Rain, frequently hail, preceding the tornado, with a heavy downpour after it has passed.

TIME OF DAY:

Mostly between 3 and 7 P.M., but they have occurred at all hours.

DIRECTION OF TRAVEL:

In most cases they move from a westerly direction, usually from the southwest.

LENGTH OF PATH:

Usually 10 to 40 miles (the average length is 16 miles), but they may move forward for 300 miles.

WIDTH OF PATH:

The average width is about 400 yards, but they have cut swaths over a mile in width.

SPEED OF TRAVEL:

25 to 40 miles per hour average, but they have varied from 5 to 139 miles per hour.

WIND SPEED:

Estimated as high as 500 miles per hour within the tornado.

CAUSES OF DESTRUCTION:

- (1) Violent winds which uproot trees, destroy buildings, and which create a serious hazard from objects blown through the air.
- (2) Differences in air pressure which can lift automobiles and can cause buildings to collapse

spot." Annual tourist expenditures in 1950 were set by the Department at \$276 million. By 1951 this figure had increased by \$136 million. During the same period the number of tourists had increased from 8 million to 9.9 million.

Mr. Average Tourist of 1955 spent 5.5 days touring the state and spent \$7.53 daily for food, lodging, and other expenses. "We believe this daily expenditure for a vacation is substantially less than is necessary in some of the other 'big' vacation states, thus allowing our out-of-state visitors to stay with us longer and see more of Texas," Greer said.

The seven Highway Department Travel Information Bureaus located at the state line were able to increase the itinerary of out-of-state visitors by assisting in planning and routing trips to include points of interest throughout Texas, Greer said.

In addition to this direct counseling of travelers, the bureaus and the Austin office during 1955 answered a total of 356,506 requests for information on Texas from potential visitors.

"In spite of the limitations imposed on us," Greer stated, "we in the Highway Department are doing everything possible to bring Texas to the attention of vacationers from other states. We believe that we have only begun to tap this source of direct cash income and in years to come we expect to see tourism move ever higher on the scale of top Texas industries."

Texas Tourist Industry Second To King Cotton In Cash Income

"A Check on the 1955 Texas Tourist Industry" was released today in Austin by the Texas Highway Department. The survey shows that 9.9 million out-of-state tourists visited Texas last year, an increase of 1.2 million persons over 1954.

In cash value the tourist industry ranks next to the state's annual cotton crop, with cotton listed at \$700 million and tourists at \$412 million for the year just past.

"Texas has been slow to realize the potential value of the tourist industry as a source of cash income," D. C. Greer, of the dept. stated, "but the steady rise way stated, 'but the steady rise of out-of-state visitors since the end of the war indicates that people in other states are becoming

Less Than Month Remains Before Tax Deadline

With one month remaining before the deadline for filing of Federal income tax returns, an estimated 675,000 taxpayers have not yet prepared and filed their 1940's and 1940A's, R. L. Phinney, district director of the Austin office said today. Only 674,000 returns have been received as of March 8, he revealed.

The director urged taxpayers to file their 1955 returns as early as possible. As time passes, he pointed out, it becomes increasingly difficult to collect all essential financial records of last year, receipted bills, cancelled checks, and other papers which enable the taxpayer to prepare the most accurate type of return. In addition, the longer the taxpayer waits the more pressing becomes the obligation, and some essential entries may be overlooked or incorrectly entered.

Telephone assistance is available by calling the Temple office, but it will be more difficult to obtain as the filing deadline nears, Mr. Phinney cautioned. Taxpayer assistance days are offered each Monday, from 8:15 a.m. to 12:00 noon for those taxpayers who feel they require office help in preparing returns.

The filing deadline is Monday,

Buckholts FHA Votes Delegates To State Meet

Buckholts Future Homemakers of America Chapter members and their sponsor, Mrs. Alice Hughes met in regular session at the home Ec. Cottage Tuesday morning, March 13, with Joy West, president in charge.

During the business session it was decided to send delegates to attend the State FHA meeting in Fort Worth April 20-21. Delegates elected were Carol Jean Zajicek and Evelyn Glaser. Two other elections were held: Chapter Pin-up Boy, Dwayne Orsay and Chapter Sweetheart, Glenn Hutka.

A Club party honoring parents has been planned for Tuesday night, March 28, at the Home Ec. Cottage with games of "42" planned for recreation.

The following chapter members will attend the District FHA meeting in Waco March 25, Joy West, Evelyn Glaser, Charlene Chudlesek, Ruth Ann Whittington, Kathryn Svltik, Bernice Jones and Twila Porter, Chapter reporter.
